

WellnessPro+®

The Future of Pain Relief

An **electrifying**
solution to reclaim
your ***life & mobility.***

"It absolutely works for me."

"I've had rheumatoid arthritis since I was 13 years old. Then in 2003, I got bit by a deer tick and tested positive for Lyme Disease. At that point, I just figured that I'd have to live with pain for the rest of my life—so to get the help with electrotherapy has been amazing. Within five months, I was totally pain-free. And now, I have been pain-free for eight years."

- Diane B.

"I feel alive again."

"I have been plagued with back problems most of my adult life. I have gone through back surgery three times. Each time it has given me temporary relief—eventually the pain returned. I could not comfortably walk any distance, sit, or stand for an extended period of time. In less than one week of using the device, the pain in my back and legs was gone. I feel a huge weight has been lifted from my mind and my body."

- G. McLarney

Introducing WellnessPro+®

Experience a breakthrough in pain relief with WellnessPro+®, a safe and effective bio-electrotherapy system that delivers microcurrents to relieve, chronic, intractable post-surgical or post traumatic acute pain, with the simple push of a button.

Simple and fast-acting

A 10 to 30-minute-session results in pain relief that can last for days or weeks.

Targeted pain relief

Unlike pharmaceutical drugs that affect the entire body, electrotherapy can be used to provide pain relief right at the site.

Non-chemical, non-habit forming

Electrotherapy is an all-natural alternative to chemical and addictive painkillers.

Supports surgical recovery

Electrotherapy aids in recovery of post-surgical discomfort or pain resulting from an injury.

Easiest To Use On The Market

- + The built in i-Guide™ system walks you through all steps of usage and programming.
- + Up to eight lead outputs for treatment flexibility and multiple stimulation points.
- + 7" easy-to-read, color LCD display with detailed session information.
- + Illuminated control panel for added safety and clarity.
- + Portable and convenient, the WellnessPro+® can be used anywhere in the world (100V to 240V) and comes with a case to protect your investment.
- + Three-year warranty (\$795 value) included with purchase.

An Epidemic Problem

Alarming statistics show the misuse of and addiction to opioids is an unparalleled health crisis

- + 1.5 billion people worldwide suffer from chronic pain
- + 77% of people report feeling depressed due to their chronic pain
- + Only 23% of patients with chronic pain found opioids effective

We are activists of a drug-free solution and challenge the chemical pharmaceutical approach to pain management.

"It's a miracle instrument!"

"The WellnessPro+® is a Godsend for me. I have Fibromyalgia that is causing severe pain, and most things I've tried to alleviate the pain have failed. A friend suggested this unit to me; I didn't know what to think. I told her I'd give it a try. At first, I felt a little improvement. Then the next day we tried a different frequency, and the pain in my legs was gone within 10 minutes! I am amazed, to say the least. There is absolutely no pain as long as I use the machine once a week. More people should know about this!"

- Jan K.

What's your current frequency?

You've tried everything—from ingesting addictive narcotics to spending tens of thousands of dollars in surgeries—and nothing is working.

Repeated use of medication or therapies can cause the body to adapt, which ultimately, can diminish the effects. This has likely been increasing the frequency at which you need medications, surgeries, and other attempts at pain relief.

I have a specific condition. Can the WellnessPro+® help me with my pain?

Yes. Electromedical Technologies, in partnership with university research centers in Europe and participating US doctors and clinics have overseen treatments using the WellnessPro+® and have seen outstanding results in the reduction of pain for a wide range of acute and chronic conditions. Check with your doctor to see if it's right for your condition.

If it's so effective, why haven't I heard of it before?

This technology has been used for decades throughout the world and is common practice in various hospitals and clinics in Europe today. Bio electrotherapy has been available to practitioners, professional athletes and celebrities for more than 60 years in the United States and has become more available in the United States in the past few years.

How Electrotherapy Works

Pain consists of impulses traveling from nerves around an injured area to the brain to deliver an un-pleasant sensation.

An Electrotherapy device (like the WellnessPro+®) sends currents to stimulate these nerves.

The signals from the stimulated nerves interfere with pain signals traveling to the brain which reduces the brain's perception of pain.

Electrotherapy devices can help relieve chronic, intractable pain and treat post-surgical or post-traumatic acute pain.

Easier on your body AND your finances.

The WellnessPro+® features one million different frequencies, so you can vary the treatments and still keep the success rate high. When you feel your body start to adapt to one type of wave, your device can adapt with your body to provide consistently effective relief.

The WellnessPro+® is the alternative you need. Developed by foremost scientists, cleared by the FDA, and used by doctors around the world, the Wellness-Pro+® has proven to be effective in relieving pain for thousands of dollars less than you would pay for surgeries and prescriptions.

What happens during the treatment?

You will attach either self-adhesive or carbon rubber electrodes to specific areas of your body. An electrode gel may be applied to facilitate better conductivity of the device's output. There should be no discomfort during treatment, and you may or may not feel a slight tingling. Typical treatments can last between 10-60 minutes. Contact your prescribing physician for more information or guidance.

Are there side effects?

The most common side effect is the reduction and/or elimination of pain! Some-times patients may experience atypical side effects including, but not limited to: diarrhea, night sweats, headaches, nausea, flu-like symptoms, etc. Make sure you consult your practitioner if you experience any symptoms.

WellnessPro+®

A Revolutionary Device

The WellnessPro+® is a state-of-the-art device that uses electrical signals to treat pain naturally and effectively.

- + Designed to expand its capabilities and support future devices and attachments.
- + Up to one million frequencies to choose from in TENS or Microcurrent mode.
- + DeepPulse ION™ technology for unique frequency delivery to problem areas.
- + Fully independent outputs. It's like having two units in one.
- + Enhanced and innovative wave types: burst, spectrum, sweep, duplex or continuous.
- + Multi-auto—run multiple auto codes without user intervention.
- + DUAL mode (interferential)—Frequency independent outputs.
- + FLUX mode— Set frequency range parameters for the unit to target.
- + Dedicated extension port for new accessories and devices.

Buy Now & Save
PRICE: \$3,495

Your WellnessPro+® pack includes:

- + Universal power adapter (100-240V)
- + 1 set of large carbon-rubber electrodes
- + 1 set of small carbon-rubber electrodes
- + 1 set of carbon rubber hand held cylinders
- + 2 sets of self-adhesive electrodes
- + Tube of conductivity gel
- + Operating manual
- + 3-Year Warranty (\$795 value)

Our 30-day money-back guarantee makes the decision easy. Try the WellnessPro+® at absolutely no risk. With the 30-day money back guarantee, you have nothing to lose and much to gain!*

*Returned devices will be charged a \$150 restocking fee.

Note: TENS devices are not recommended with all conditions. Ask your doctor to determine if the WellnessPro+® is appropriate for you.

Buy Your WellnessPro+® & Better Your Health Now

Can I buy the WellnessPro+® for myself?

Yes! The WellnessPro+® is available for personal use. If you would like to purchase a device, you will need a prescription from a licensed medical provider.
